# TABLE OF CONTENTS

# INTRODUCTION

The MoDOT mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri. The Highway Safety and Traffic Division (HSTD), Office of Highway Safety (OHS), works specifically to reduce the number and severity of traffic crashes resulting in deaths and injuries. This requires the staff to work closely with state and local agencies in an attempt to develop programs which are innovative, cost efficient and, above all, effective in saving lives. This is accomplished through development and administration of the Governor's Highway Safety Program.

The National Highway Traffic Safety Administration indicates more than 94 percent of all traffic crashes are the result of human error. Operating a motor vehicle requires 100 percent of our attention. The motoring public must accept and take responsibility for their actions and adopt the mindset that the best way to prevent a crash is to do everything possible to avoid the crash. The multidisciplinary approach of education, engineering, enforcement and emergency response is critical to the success of the Offiice of Highway Safety's goal of reducing the number and severity of traffic crashes resulting in deaths and injuries.

When the 2017 Highway Safety Plan was developed, Missouri was still operating under "Missouri's Blueprint to Save More Lives" strategic highway safety plan. Beginning January 1, 2017, Missouri implemented the next strategic highway safety plan, "Missouri's Blueprint: A Partnership Toward Zero Deaths". However, the overall goal of 700 or fewer fatalities remained Missouri's interim goal, on the road to our now ultimate goal of zero fatalities on Missouri's roadways.

This effort requires action from numerous individuals and groups. We strive to incorporate involvement from both traditional and non-traditional partners in our safety endeavors. Expanded partnerships enable us to reach a broader base of customers with the life-saving messages of traffic safety.

The accomplishments noted in this report would not have occurred without the dedication and foresight of the staff of the Office of Highway Safety. In addition, the Missouri State Highway Patrol, Statistical Analysis Center; University of Central Missouri, Missouri Safety Center; Health and Safety Councils; the Missouri Coalition for Roadway Safety; Missouri Safe Communities; Missouri Advocates for Traffic Safety; Law Enforcement Traffic Safety Advisory Council (LETSAC); local and county law enforcement agencies; Region 7, National Highway Traffic Safety Administration (NHTSA) and many others continually provided assistance and helped expand our creativity and scope.

## **MISSION, VISION & GOAL**

### **GOAL**

700 or fewer fatalities by 2020

### **VISION**

Continuously  
Moving  
Missouri  
*Toward Zero  
Deaths*

### **MISSION**

*Missouri's Blueprint  
~ A Partnership  
Toward Zero Deaths*

To make travel on  
Missouri's roadways safer  
through a partnership of committed  
local, state, federal, public and private organizations.

# MISSOURI HIGHWAY SAFETY PROGRAM

## DATA ANALYSIS

### GUIDELINES

In the State of Missouri, the state highway safety program is administered through the Office of Highway Safety (OHS), a unit of the Highway Safety & Traffic Division, Missouri Department of Transportation. The Annual Report for the OHS covers those activities funded for the period October 1, 2016, through September 30, 2017. The structure of this report attempts to follow the guidelines set forth by the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration (FHWA) Order 960-2/7510.3A.

An annual Highway Safety Plan (HSP) is developed by the OHS utilizing statewide traffic crash data. The Missouri State Highway Patrol serves as

the central repository for all traffic crash data in the state. The Safety Section of MoDOT's Highway Safety & Traffic Division analyzes that data to compile statistics on fatalities and serious injuries. Three years' worth of crash statistics are compiled to provide a more representative sampling, thereby more effectively normalizing the data. Missouri uses comprehensive data sources which include: STARS and Traffic Management System (TMS). The State data presented in this report represent 2016 data that is entered and available for analysis as of November 27, 2017. The data was either extracted from State (STARS) or Federal (FARS) data sources.

### PURPOSE

The National Highway Safety Act of 1966 charges each Governor with

the responsibility of establishing a state highway safety program. The goal of the OHS is to reduce both the number and severity of traffic crashes and the deaths and injuries resulting from these crashes.

### PROBLEM ID - ANNUAL DATA

Traffic crashes are, unfortunately, an accepted part of our mobile society. In 2016, there were 157,696 traffic crashes in Missouri. In these crashes, 947 people lost their lives and 57,690 persons were injured. Based on U.S. Department of Transportation Guidance on Treatment of the Economic Value of a Statistical Life of \$9.6 million per fatality, this resulted in an economic loss to the state of nearly \$9.1 billion. Per NHTSA Traffic Safety Facts (July 2016) from 2012-2014, motor vehicle traffic crashes were the leading cause of death among people 16 to 24 years old for each year.

### STRATEGIES

Missouri's target of 700 or fewer fatalities has been integrated into all key planning documents

that include: Strategic Highway Safety Plan (SHSP), Missouri's Blueprint – A Partnership Toward Zero Deaths (Blueprint); the Commercial Vehicle Safety Plan (CVSP); and the Highway Safety Plan and Performance Plan (HSP). The fatality reduction goal is also included in the Highway Safety Improvement Program (HSIP) Annual Report along with fatalities, fatality rates and serious injuries. Every effort is made to establish evidence based strategies that guide Missouri to meet this target.

State and local governmental agencies are solicited to assist in the development of countermeasure projects to address the traffic crash issues through the Missouri Coalition for Roadway Safety and Highway Safety Grant Funding. These projects are then compiled into a comprehensive traffic safety plan for the state. Federal funding to support the OHS is channeled to the state from the Section 402 Highway Safety Program within the U.S. Department of Transportation. In addition to 402 funding, Missouri also received Section 154 AL, 154 HE, and 405b, c, d, and f.

## SUCCESSES/ RESULTS

Since inception of the highway safety program in 1967, Missouri has witnessed a drop in the vehicle death rate per 100 million vehicle miles traveled from 6.2 to 1.27 in 2016. However, during the last two years, Missouri has experienced an increase in fatalities each consecutive year. In 2015, there was an increase of 104 fatalities from the previous year and there was another increase of 77 fatalities in 2016 compared to 2015. Due to this increase, Missouri is beginning to see an increase in its three-year moving average as well. The new interim goal set by the Missouri Coalition for Roadway Safety is 700 or fewer fatalities by 2020 as we continue to move Toward Zero Deaths.

### FARS Data

Overall Crashes in 2014 - 137,448

Injuries in 2014 - 47,973

Deaths in 2014 - 766

Overall Crashes in 2015 - 148,659

Injuries in 2015 - 53,893

Deaths in 2015 - 870

Overall Crashes in 2016 - 157,696

Injuries in 2016 - 57,690

Deaths in 2016 - 947

## PROGRAM EVALUATION

Two types of evaluation methods are used to determine program effectiveness—administrative and impact. Administrative evaluations measure the operational efficiency of task activities relative to meeting the established goals and objectives of the project, including a risk assessment conducted prior to awarding a subrecipient a contract. Impact evaluations determine the extent to which the project was able to impact traffic crash involvement.

Included within this Annual Report are traffic safety countermeasure programs that

have demonstrated best practices. These programs satisfy most, if not all, of the following criteria:

- They employ crash statistics to identify problem areas;
- They target high risk groups of individuals;
- They utilize knowledge & expertise of the local community to propose workable solutions;
- They apply varied resources from numerous sources;
- They are comprehensive in design; and
- They seek to modify behavior through effective enforcement, education, EMS and engineering.

## INTERNAL ACTIVITIES

In addition to administering programs that are funded through state and local government agencies, OHS staff members participate in activities to further traffic safety within the state. These include, but are not limited to:

- Production and distribution of traffic safety materials;
- Legislative tracking and review;
- Training presentations (child passenger safety, safety belts, law enforcement grant applications, traffic safety programs, legislation, youth issues, etc.);
- Exhibits (safety fairs, conferences, State Fair, employer programs, etc.);
- Press conferences & media events; and
- Federal, state and local committees/boards with like-minded missions.

# EMPHASIS & FOCUS AREAS

The Missouri Blueprint ~ A Partnership Toward Zero Deaths addresses six emphasis and 25 focus areas. Only key strategies that provide the greatest likelihood of reducing roadway-related fatalities and serious injuries are included. Extensive data analysis and review of current research were used as a basis for strategy selection.

Strategies were developed for each of these focus areas that incorporated the 4 E's – education, enforcement, engineering, and emergency response as well as technology and public policy. All of these are also included in the *Highway Safety Plan (HSP)*, which also addresses the areas of Public Information and Education, and Engineering.

The Emphasis Areas that the HSO and safety partners place focus on are below:

## **Emphasis Area I / Serious Crash Types**

### **Focus Areas**

- o Lane Departure
  - Run-Off-Road - Not in a Curve
  - Run-Off-Road - In a Curve
  - Collisions with Trees and/or Utility Poles
  - Head-On
- o Intersection Crashes
  - Non-Signalized
  - Signalized

## **Emphasis Area II / High-Risk Driving and Unrestrained Occupants**

### **Focus Areas**

- o Aggressive Driving
- o Unrestrained Drivers and Occupants
- o Substance-Impaired Driving
- o Unlicensed/Improperly Licensed Driving
- o Young Driver (15 - 20 years of age)
- o Distracted/Inattentive Driving
- o Drowsy Driving

## **Emphasis Area III / Special Vehicles**

### **Focus Areas**

- o Commercial Motor Vehicles (CMVs)
- o All-Terrain Vehicles (ATVs)/Utility Vehicles (UTV's)
- o School Buses

## **Emphasis Area IV / Vulnerable Roadway Users**

### **Focus Areas**

- o Older Drivers (Age 65 or older)
- o Motorcyclists
- o Pedestrians
- o Bicyclists

## **Emphasis Area V / Special Roadway Environments**

### **Focus Areas**

- o Nighttime Driving
- o Work Zone
- o Highway / Rail Crossing
- o Traffic Incident Management Areas

## **Emphasis Areas VI / Data and Data System Improvements**

### **Focus Areas**

- o Data Collection
- o Data Accessibility
- o System Linkage

## SNAPSHOT OF MO STATISTICS BASED ON STARS

Since this report is directed toward modifying behavior so that safety will be the accepted norm, it stands to reason that we must identify and categorize those individuals who are making unsafe decisions and/or who are causing traffic crashes. It should be obvious to the reader that this document references targeted audiences or populations. The term "target audience" infers a population group that is overrepresented in a particular type of crash (e.g., drinking drivers) or is underrepresented in using safety devices (e.g., un-helmeted motorcyclists or unrestrained occupants). This terminology is in no way meant to profile certain populations by age,

gender, race, or nationality. Rather, this is an accepted term to identify specific population groups that must be reached with our messages and our enforcement efforts if we are to reduce traffic crashes, prevent injuries and save lives.

This section gives an overall snapshot view of the fatalities occurring on Missouri roadways during the past five years allowing the reader to view the 5-year trend in fatalities for each program area. The remainder of the report uses one year's worth of crash statistics to provide a representative sampling. The data in this section is state data only.

**Overall Fatalities/Serious Injuries** - A substantial number of people continue to be killed and seriously injured on Missouri roadways and most of these traffic crashes are preventable.

The graph below illustrates the number of fatalities on Missouri roadways from 2012-2016.

The graph below illustrates the number of serious injuries on Missouri roadways from 2012-2016.

The graph below illustrates the number of fatalities on Missouri roadways from 2012-2016 due to the involvement of alcohol and drugs. Of the 1,150 people killed in 2012-2016 alcohol and/or other drug-related traffic crashes, 71% were the substance-impaired driver/pedestrian/bicyclist and 29% were some other involved party.

In known cases of those occupants killed who were totally ejected from the vehicle, 97% were not restrained and of those partially ejected, 90% were not restrained. Of the occupants killed who were not ejected from their vehicles, 50% were not restrained.

Aggressive Driving is a serious problem on Missouri's roadways and has contributed substantially to traffic crashes, especially crashes resulting in death.

### AGGRESSIVE DRIVING- TOO FAST FOR CONDITIONS INVOLVED FATALITIES

### AGGRESSIVE DRIVING - FOLLOWING TOO CLOSE INVOLVED FATALITIES

Approximately 38% of the distracted drivers involved in fatal car crashes in the last five years were between 15 and 30 years of age. The graph below illustrates all those killed in crashes involving a distracted driver.

Of all 2012-2016 fatal and serious injury crashes in Missouri, 19% involved a young driver (age 15-20) of a motor vehicle.

Of all 2012-2016 fatal and serious injury crashes in Missouri, 10% involved an older driver (age 65-75) of a motor vehicle

In 2012-2016, there were 720,670 traffic crashes in the state. In these crashes, 63,403 (9%) involved at least one commercial motor vehicle. Of the 3,820 fatal crashes, however, 520 (14%) involved at least one commercial motor vehicle.

In most instances, motorcycle drivers and/or their passengers are the ones killed and seriously injured when they are involved in a traffic crash. The graph indicates the number of motorcyclists killed in roadway crashes.

Of the 12 persons killed during 2012-2016 in crashes involving school buses, no bus occupants were killed, one was a pedestrian and 11 were some other person in the incident.

Pedestrians and bicyclists alike need to understand that they have primary responsibility for their own safety; however, the motoring public also has a responsibility to share the road in a safe manner with these vulnerable road users.

# CORE OUTCOME MEASURES

In addition to the Focus Areas, the OHS focuses on 15 Core Outcome Measures.

The National Highway Traffic Safety Administration (NHTSA) and the Governors Highway Safety Association (GHSA) have agreed on a minimum set of performance measures to be used by States and federal agencies in the development and implementation of behavioral highway safety plans and programs.

An expert panel from NHTSA, the State Office of Highway Safety, academic and research organizations, and other key groups assisted in developing the measures.\*

The initial minimum set contains 15 measures: 11 core outcome measures, one core behavior measure, and three activity measures. The measures cover the major areas common to State highway safety plans and use existing data systems. The following outlines the 15 performance measures which will be identified within their respective program areas. Below each of the Goals, the 2016 results from the 2016 calendar years using FARS and State data.

\*Traffic Safety Performance Measures for States and Federal Agencies DOT HS 811 025, August 2008.

## C-1 FATALITIES

To decrease traffic fatalities from the 2012 calendar base year of 854 to 700 by 2017.

GOALS		
2014	2015	2016
775	738	700

**RESULT:** 945 for 2016 (FARS)

## C-2 SERIOUS INJURIES

To decrease serious traffic injuries from the 2012 calendar base year of 5,506 to 4,534 by 2017.

GOALS		
2014	2015	2016
5,020	4,781	4,534

**RESULT:** 4,740 for 2016 (STARS)

## C-3 FATALITIES/VMT

To decrease fatalities/VMT from the 2012 calendar base year of 1.19 to 1.0 by 2017.

**RESULT:** Total - 1.27 for 2016 (FARS)

Rural: 1.69 for 2015 (FARS)

Urban: 0.87 for 2015 (FARS)

## **C-4 UNRESTRAINED PASSENGER VEHICLE OCCUPANT FATALITIES**

To decrease unrestrained passenger vehicle occupant fatalities in all seating positions from the 2012 calendar base year of 394 to 324 by 2017.

<b>GOALS</b>		
2014	2015	2016
361	344	324

**RESULT:** 384 for 2016 (FARS)

## **C-5 ALCOHOL-IMPAIRED DRIVING FATALITIES**

To decrease alcohol impaired driving fatalities from the 2012 calendar base year of 283 to 233 by 2017.

<b>GOALS</b>		
2014	2015	2016
255	243	233

**RESULT:** 244 for 2016 (FARS)

## **C-6 SPEEDING RELATED FATALITIES**

To decrease speeding-related fatalities from the 2012 calendar base year of 326 to 268 by 2017.

<b>GOALS</b>		
2014	2015	2016
285	272	268

**RESULT:** 328 for 2016 (FARS)

## **C-7 MOTORCYCLIST FATALITIES**

To decrease motorcyclist fatalities from the 2012 calendar base year of 104 to 86 by 2017.

<b>GOALS</b>		
2014	2015	2016
93	89	86

**RESULT:** 127 for 2016 (FARS)

## **C-8 UNHELMETED MOTORCYCLIST FATALITIES**

To decrease unhelmeted motorcyclist fatalities from the 2012 calendar base year of 9 to 7 by 2017.

<b>GOALS</b>		
2014	2015	2016
8	8	7

**RESULT:** 15 for 2016 (FARS)

## **C-9 DRIVERS AGED 20 OR YOUNGER INVOLVED IN FATAL CRASHES**

To decrease drivers age 20 or younger involved in fatal crashes from the 2012 calendar base year of 129 to 111 by 2017.

<b>GOALS</b>		
2014	2015	2016
123	117	111

**RESULT:** 128 for 2016 (FARS)

## C-10 PEDESTRIAN FATALITIES

To decrease pedestrian fatalities from the 2012 calendar base year of 84 to 71 by 2017.

GOALS		
2014	2015	2016
78	75	71

**RESULT:** 96 for 2016 (FARS)

## C-11 BICYCLIST FATALITIES

To decrease bicyclist fatalities from the 2012 calendar base year of 6 to 4 by 2017.

GOALS		
2014	2015	2016
5	5	4

**RESULT:** 8 for 2016 (FARS)

## CORE BEHAVIOR MEASURE

### B-1 OBSERVED BELT USAGE

To increase statewide observed seat belt use of front seat outboard occupants in passenger vehicles 1% annually from the 2013 calendar base year average usage rate of 80% to 84% by 2017.

GOALS		
2015	2016	2017
82%	83%	84%

**RESULT:** 84% for 2017

## ACTIVITY MEASURES

### A-1 NUMBER OF SEAT BELT CITATIONS ISSUED

To increase the number of seat belt citations and warnings issued during grant funded enforcement activities by .25 percent annually from the 2011-2103 calendar base year average of 35,256 to 35,608.

**RESULT:** 31,220  
(26,693 citations) for FY2017

### A-2 NUMBER OF IMPAIRED DRIVING ARRESTS

To increase the number of substance-impaired driving arrests made during grant funded enforcement activities by .25 percent annually from the 2011-2103 calendar base year average of 7,975 to 8,055.

**RESULT:** 5,665 FY2017

### A-3 NUMBER OF SPEEDING CITATIONS ISSUED

To increase the number of speeding citations and warnings issued during grant funded enforcement activities by .25 percent annually from the 2011-2103 calendar base year average of 120,588 to 121,794.

**RESULT:** 121,609  
(72,590 citations) for FY2017

# Highway Safety Grant Project Distribution 2017

The OHS provides grant funding to external partners and law enforcement agencies to enhance the efforts of reducing fatalities and serious injuries on Missouri's roadways. This map represents the number of grant contracts per county awarded through the OHS and law enforcement mobilization campaigns.

Missouri conducts an annual telephone survey to adult Missouri drivers to capture their current attitudes and awareness concerning impaired driving, seat belt use and speeding. Heartland Market Research LLC was selected for this project and surveyed 2,506 adult Missouri drivers at three times throughout the Federal Fiscal Year 2017 (October, February, and June).

Special efforts were made to make the phone survey as representative as possible, especially in terms of the research objectives (geographic, gender, and age). People were surveyed from 114 counties as well as the independent city of St. Louis. Residents from 603 different zip codes are represented. The calling center was given specific goals for each age group and gender within various geographic areas to ensure the most representative sample possible within the constraints of the project.

The survey results were weighted proportionally to the actual population in terms of geographic, gender, and age distributions. The figures displayed on the next three pages are the results for each question.

1. How often do you use seat belts when you drive or ride in a car, van, sport utility vehicle, or pick up?

REPLY	2017
ALWAYS	81.9%
MOST OF THE TIME	9.4%
HALF OF THE TIME	3.3%
RARELY	2.6%
NEVER	2.6%
REFUSED	0.2%

2. Do you favor keeping Missouri's seat belt law as a "secondary law" - where you can only be pulled over or ticketed if you are observed committing another violation; or do you favor changing Missouri's seat belt law to a "primary law" - where you can be pulled over or ticketed if the officer clearly observes you are not wearing your seat belt?

REPLY	2017
KEEP "SECONDARY LAW"	44.0%
CHANGE TO "PRIMARY LAW"	49.8%
NO OPINION/REFUSED	6.2%

3. Currently, the fine for violating Missouri's seat belt law is \$10. Would you support an increase in the fine associated with this violation?

REPLY	2017
YES	42.9%
NO	53.6%
NO OPINION/REFUSED	3.4%

4. In your opinion, what should the fine associated with violating Missouri's seat belt law be?

REPLY	2017
UNDER \$25	16.7%
\$25 TO \$49	38.5%
\$50 TO \$74	23.0%
\$75 TO \$100	12.1%
OVER \$100	7.4%
NO OPINION/REFUSED	2.3%
MARGIN OF ERROR	3.0%

5. In the past 6 months, have you read, seen, or heard anything about seat belt law enforcement by police, such as "Click It or Ticket"?

REPLY	2017
YES	57.3%
NO	42.3%
NO OPINION/REFUSED	0.4%

6. What do you think the chances are of getting a ticket if you don't wear your seat belt?

REPLY	2017
ALWAYS	11.0%
MOST OF THE TIME	13.4%
HALF OF THE TIME	19.2%
RARELY	36.7%
NEVER	10.1%
REFUSED	9.5%

7. On a local road with a speed limit of 30 mph, how often do you travel faster than 35 mph?

REPLY	2017
ALWAYS	3.6%
MOST OF THE TIME	10.2%
HALF OF THE TIME	13.3%
RARELY	42.8%
NEVER	29.1%
REFUSED	0.8%

8. On a local road with a speed limit of 70 mph, how often do you drive faster than 75 mph?

REPLY	2017
ALWAYS	2.2%
MOST OF THE TIME	5.1%
HALF OF THE TIME	7.3%
RARELY	31.6%
NEVER	53.3%
REFUSED	0.5%

9. In the past 6 months, have you read, seen or heard anything about speed enforcement by

REPLY	2017
YES	42.8%
NO	56.2%
NO OPINION/REFUSED	1.0%

10. What do you think the chances are of getting a ticket if you drive over the speed limit?

REPLY	2017
ALWAYS	6.4%
MOST OF THE TIME	23.5%
HALF OF THE TIME	34.8%
RARELY	26.4%
NEVER	3.7%
REFUSED	5.1%

11. How often do you talk on a hand-held cellular phone while driving a car, van, sport utility vehicle, or pick-up?

REPLY	2017
ALWAYS	1.2%
MOST OF THE TIME	2.0%
HALF OF THE TIME	6.6%
RARELY	35.4%
NEVER	54.5%
REFUSED	0.2%

12. How often do you use a hand-held cellular phone for texting while driving a car, van, sport utility vehicle, or pick-up?

REPLY	2017
ALWAYS	0.1%
MOST OF THE TIME	0.1%
HALF OF THE TIME	0.4%
RARELY	6.8%
NEVER	92.6%
REFUSED	0.1%

**Table 14: Statewide Opinions Regarding Cell Phone Restrictions**

1. Many states have passed laws which restrict or ban cellular phone use, including texting, while driving. What level of restrictions would you support regarding cellular phone usage while driving?

REPLY	2017
FULL RESTRICTIONS - NO CELLULAR PHONE USE ALLOWED	36.1%
BAN ON TEXTING WHILE DRIVING, PHONE USE ALLOWED	14.1%
BAN ON TEXTING WHILE DRIVING, HANDS-FREE PHONE DEVICE ALLOWED	17.2%
HANDS-FREE PHONE DEVICE USE ONLY	26.8%
NO RESTRICTIONS	3.6%
NO OPINION/REFUSED	2.3%

2. In the past 60 days, how many times have you driven a vehicle within two (2) hours after drinking alcoholic beverages?

REPLY	2017
0	92.23%
1	2.83%
2	2.00%
3	0.70%
4	0.50%
5	0.44%
6	0.03%
7	0.00%
8	0.13%
10	0.18%
12	0.06%
14	0.00%
16	0.00%
20	0.08%
25	0.07%
30	0.02%
60	0.09%
REFUSED	0.55%

3. In the past 6 months, have you read, seen or heard anything about alcohol impaired driving (or drunk driving) enforcement by police such as "Drive Sober or Get Pulled Over"?

REPLY	2017
YES	66.9%
NO	31.8%
NO OPINION/REFUSED	1.2%

4. What do you think the chances are of someone getting arrested if they drive after drinking?

REPLY	2017
ALWAYS	12.0%
MOST OF THE TIME	19.3%
HALF OF THE TIME	32.7%
RARELY	29.7%
NEVER	1.5%
REFUSED	4.7%

# **PROGRAM GOALS, RESULTS & ACTIVITIES**

This section outlines the programs, program goals as outlined in the Highway Safety Plan, results and activities for each highway safety program area. This is simply a summary of each area; additional activities may have been implemented across the state.

## **Evidence-Based Enforcement Program Activities**

The Office of Highway Safety has three law enforcement (LE) program managers that cover specific regions of the state. These managers are responsible for the statewide coordination of the state, county, and local law enforcement projects. The evidence-based traffic safety enforcement program is focused on preventing traffic violations, crashes, and incidents. It involves an array of enforcement activities throughout the fiscal year including:

- Mobilizations - The LE program managers aggressively seek participation in quarterly impaired driving and occupant protection mobilizations, as well as, the NHTSA required Driver Sober or Get Pulled Over and the Click It or Ticket mobilization. Additional mobilizations are coordinated by the Office for Youth Alcohol, Teen Seatbelt and Child Passenger Safety. Mobilization results can be viewed in the respective program sections.
- Communication - A communication plan is developed with each LE mobilization. These plans vary depending on available funding but typically include press releases, paid media, social media and earned media.
- DWI/Traffic Units – A key enforcement technique used is to team with a city or county law enforcement agency to financially support DWI/Traffic Units. Missouri currently has 10 units:

- o Joplin Police Department
- o Greene County Sheriff's Office
- o Boone County Sheriff's Office
- o Columbia Police Department
- o Jackson County Sheriff's Office
- o Jefferson County Sheriff's Office

- o Franklin County Sheriff's Office
- o St. Louis County Police Department
- o Creve Coeur Police Department
- o Platte County Sheriff's Office

• Law Enforcement Task Forces/Councils – Multiple city/county agencies meet on a regular basis to plan and coordinate key enforcement activities. With the shortage of personnel to conduct sobriety checkpoints and other enforcement initiatives in many agencies, the task force concept provides the opportunity to pool resources to conduct manpower intensive activities such as sobriety checkpoints or corridor projects. Missouri currently has 10 multijurisdictional task forces:

- o Southwest DWI Task Force  
(12 Agencies)
- o Northwest DWI Task Force  
(2 Agencies)
- o Jackson County Traffic Safety Task Force  
(11 Agencies)
- o Cass County STEP DWI Task Force  
(7 Agencies)
- o Clay/Platte County DWI Task Force  
(13 Agencies)
- o St. Louis Regional Traffic Safety Council  
(50 Agencies)
- o St. Charles County DWI Task Force  
(7 Agencies)
- o Central Ozarks Regional DWI Task Force  
(14 Agencies)
- o Southeast Missouri DWI Task Force  
(15 Agencies)
- o Law Enforcement Traffic Safety Advisory Council  
(20 Agencies, represents all agencies state wide)

- Sobriety Checkpoints – In the past, Missouri law enforcement agencies averaged nearly 600 sobriety checkpoints each year through mobilizations and law enforcement grant contracts. In May 2017, the Missouri House of Representatives added a provision to Missouri HB4 (which gives spending authority to the Missouri Department of Transportation) limiting the spending authority of the OHS on sobriety checkpoints to \$1.00. This became effective July 1, 2017; however, in order to ensure any reimbursement requests were processed prior to the July 1 date, the OHS notified all subrecipients to conclude all activity at the end of May. Since a vast majority of sobriety checkpoints take place throughout the summer and especially during the National Drive Sober or Get Pulled Over campaign in August/September, Missouri's law enforcement agencies were only able to conduct 163 sobriety checkpoints during FFY17.
- Continuous follow-up and adjustment – Program management staff reviews the results of various LE initiatives/mobilizations and share these results with city/county LE agencies on a regular basis.

*Data reflects activity as of 12/20/2017*

### FY 2017 Enforcement Statistics October 1, 2016 through September 30, 2017

#### **ARRESTS**

DWI	TOO CLOSE	STOP SIGN	SIGNAL	YIELD	CI DRIVING	SPEEDING	OTHER HMV	DUI DRUG ARRESTS	TOTAL HMV
5,260	1,032	5,851	2,231	1,197	1,602	72,590	10,570	405	100,738

263,230	181,081

## Public Information & Education

Highly visible, catchy media campaigns coupled with strong enforcement efforts continue to prove to be the most effective means to heighten awareness but also to encourage positive behavioral changes. The campaigns are perpetuated through traditional media venues (TV, radio, print, outdoor, digital) as well as through social media through mainstream platforms

such as Facebook, Twitter, Instagram, SnapChat, Pinterest and Vine. Various online quiz components helped to educate the public. Dynamic Message Boards statewide help promote campaign awareness by alerting the traveling public to enforcement efforts.

CAMPAIGN NAME	MONTH/YEAR	MEDIA BUYS	IMPRESSIONS
Operation Safe Driver	Oct-16	\$175,000	31,157,221
Holiday Impaired	Dec-16	\$212,500	34,122,277
Super Bowl	Feb-17	\$100,000	3,343,663
March Impaired	Mar-17	\$162,500	23,925,692
Teen Seat Belt	Mar-17	\$300,000	43,199,621
CMV Awareness	Apr-17	\$100,000	5,646,166
Work Zone Awareness	Apr-17	\$183,500	29,264,227
Motorcycle Awareness	May-17	\$237,000	26,087,871
Click it or Ticket	May-17	\$350,000	36,413,128
Youth Alcohol	May-17	\$250,000	30,981,475
Pedestrian Awareness	Jun-17	\$100,000	22,674,258
July Impaired	Jul-17	\$100,000	10,779,767
Drive Sober or Get Pulled Over	Aug-17	\$245,000	32,883,029
Child Passenger Safety	Sep-17	\$150,000	14,352,849
TOTAL		\$2,665,500	344,831,244

The goals of the paid media campaigns are to alert the public of enforcement efforts, educate the public on Missouri law, and decrease the serious injury and fatality crashes on Missouri's roadways.

Traffic safety materials distributed through on-line ordering system in FY2017 = 150,795.

FY17 saw an increase in new creative for all media outlets with our campaigns. Continued research and tracking of the campaign performance allows us to reach an optimum audience at a minimal cost per impression. Media campaigns this fiscal year focused on the following program areas:

- Occupant Protection – Buckle Up – You're Crazy Not To (Click It or Ticket), Buckle Up. Every Trip. Every Time. (Teen), Child Passenger Safety, It's More Than Just a Law (CPS)
- Work Zone Awareness – Work Zones Are No Phone Zones
- Operation Safe Driver and Commercial Motor Vehicle – "If Only" Doesn't Save Lives
- Impaired Driving – Don't Drink and Drive – Liam's Story – Super Bowl (February), Don't Press Your Luck (March), Don't Let One Moment Define You (Youth Alcohol), Don't Lose Your Freedom (July), Don't Drink and Drive – Liam's Story - (DSOGPO)

- Motorcycle Safety Awareness – Watch for Motorcycles

All campaigns continued the use of an American Sign Language (ASL) Interpreter in the 30 second PSA's. This allowed us to reach out to the deaf and hard of hearing residents of Missouri to further spread our highway safety messages.

Work continues in the production of Spanish voice over of all video and radio media, and producing all print and digital text materials in Spanish to reach the Hispanic population of Missouri. Targeted advertising will specifically reach this audience with highway safety messaging in Spanish.

### Aggressive / Speeding Drivers

Aggressive-driver related crashes are defined within Missouri's Blueprint: A Partnership Toward Zero Deaths as, "crashes that involved a driver who committed one or more of the following violations that contributed to the cause of a traffic crash: speed exceeded limit; too fast for conditions; following too close, improper passing, or improper lane usage/change".

The causes of aggressive driving are complex. However, three factors in particular are linked to aggressive driving: 1) lack of responsible driving behavior; 2) insufficient levels of traffic enforcement; and 3) increased congestion and travel in our urban areas.

#### **GOAL #1:**

To decrease aggressive driving-related fatalities to 270.

Result: 338 for 2016 (STARS)

#### **GOAL #2:**

To decrease speed-related fatalities to 268.

Result: 328 for 2016 (FARS)

#### **GOAL #3:**

To increase the number of speeding citations and warnings issued during grant funded enforcement activities by .25 percent annually from the 2011-2103 calendar base year average of 120,588 to 121,794.

Result: 121,609 (72,590 citations) for FY2017

The Office of Highway Safety focuses on aggressive driving by issuing Hazardous Moving Violation (HMV) contracts to law enforcement agencies across the state. In FY 2017, the Office issued 130 HMV law enforcement contracts resulting in 100,738 HMV violation citations and 109,424 HMV violation warnings. Efforts in this area continue to be funded and encouraged. Some of the projects used to reduce the number of aggressive driving crashes are targeted corridor projects and Selective Traffic Enforcement Programs (STEPs) conducted by law enforcement agencies. Speed monitoring devices and changeable message signs are also used across the state to keep motorists aware of dangerous situations and actions. News releases and the media are coupled with the enforcement efforts to reach the public and educate on the dangers of aggressive driving.

## Alcohol & Other Drugs

Twenty percent of all Missouri motor vehicle traffic deaths in 2016 involved one or more substance-impaired driver or motorcycle operator. There were 220 fatalities and 669 serious injuries in 2016 involving at least one substance-impaired driver. That equates to one substance-impaired driving fatality every 1 ¾ days and one substance-impaired driving serious injury every ½ day.

Youth make up a significant portion of alcohol impaired drivers causing traffic crashes, even though possessing and consuming alcohol before the age of 21 is illegal.

### **GOAL #1:**

To decrease fatalities involving drivers with .08 BAC or greater to 233.

Result: 244 in 2016 (FARS)

### **GOAL #2:**

To increase the number of substance-impaired driving arrests made during grant funded enforcement activities by .25 percent annually from the 2011-2103 calendar base year average of 7,975 to 8,055.

Result: 5,665 for FY2017

### **GOAL #3:**

To decrease fatalities involving alcohol-impaired drivers under the age of 21 years to 14.

Result: 5 for 2016 (STARS)

Projects funded by the OHS in the alcohol and other drugs program area include a wide focus area. The law enforcement DWI traffic units and DWI task forces detailed in the Traffic Safety Enforcement Program section are a great deterrent for impaired drivers. Programs focused on young impaired drivers are included in the Young Driver Section.

**Underage Drinking Law Enforcement Training Sessions** – Each year the OHS sponsors law enforcement training focusing on handling underage drinking

issues law enforcement encounter. During the fiscal year, 3 trainings were conducted in the locations of St. Joseph, Cape Girardeau, and Jefferson City. The topics taught by certified trainers were: Using Social Media to Address Underage Drinking, DWI Checkpoints to Enforce Youth Impaired Driving, and Instruction on the Missouri Liquor Law.

**Traffic Safety Resource Prosecutor Program** - This project provided for a traffic safety resource prosecutor (TSRP) to focus on traffic safety issues, particularly impaired driving, and serve as a resource to other prosecutors and law enforcement officers. This position is shared between two attorneys, the Deputy Director of the Missouri Office of Prosecution Services and a special prosecutor in the office. The TSRP Program conducted 26 training programs which were attended by a combined total of 645 people. When considering all of the funded programs, other training conducted, and other training opportunities provided, the TSRP Program reached a minimum of 122 Missouri prosecutors, 765 Missouri law enforcement officers, and 24 other Missouri traffic safety advocates. In total, the Missouri Traffic Safety Resource Prosecutors provided

training to a minimum of 1,647 people. Five editions of the Traffic Safety Newsletter were sent out in November 2016 and in January, March, July and September 2017. Approximately 166 requests for technical assistance were received from prosecuting attorney's offices and law enforcement agencies around the state. In addition, as part of the TSRP program, numerous cases were reviewed with prosecutors to discuss appropriate charges and strategy and the TSRP served as special prosecutor in thirteen cases.

#### **DWI (Impaired) State Wide Mobilizations**

The five Impaired Driving enforcement mobilizations conducted were:

December 15, 2016 – January 1, 2017 (Holiday DWI Campaign)  
March 16-19, 2017 (St. Patrick's Weekend)  
May 4 – 15, 2017 (Youth Alcohol Enforcement)  
June 30 – July 4, 2017 (Fourth of July Weekend)  
August 18 - September 3, 2017 (Drive Sober or Get Pulled Over DWI Campaign)

Out of the five statewide mobilizations, there were on average 169 agencies involved in each mobilization and 24,187 total man hours worked.

Highlights from the five (5) mobilizations are as follows:

25 DWI Checkpoints  
164 MIP (Minor In Possession)  
26 Zero Tolerance violations  
1,180 DWI Arrest  
101 Drug Arrest / DUI Arrest  
36,639 Traffic Stops

#### **Missouri Legislation Eliminating Funding for DWI Checkpoints**

On May 4, 2017 the State of Missouri Legislature passed House Bill 4, which restricted the Office of Highway Safety to \$1 to be spent on sobriety checkpoints. While not statutorily eliminating sobriety checkpoints, this reduction in spending authority effectively ended the OHS ability to pay for sobriety checkpoints, sobriety checkpoint equipment, and checkpoint supervisor training. While a handful of agencies continued checkpoints using their own funding, the restriction all but ended Missouri's sobriety

checkpoint program. Because of this restriction, Missouri law enforcement agencies only conducted 163 sobriety checkpoints during FFY17, far fewer than in the past. The spending authority restriction affected MoDOT's FY2017 budget only, and it is unclear if future budget years will also be affected.

#### **Breath Alcohol Instrument Placement Program and Technical Assistance**

The Missouri Safety Center (MSC) provides breath alcohol instrument placement, maintenance and service across the State. In addition, MSC provides technical training to law enforcement officers and others in the criminal justice system in the area of breath alcohol testing, standardized field sobriety testing, drug evaluation and classification, breath alcohol ignition interlock and sobriety checkpoint supervisor. Calls for service, repairs or calibrations of breath instruments were provided to local law enforcement agencies. The Center provided 24 new breath alcohol testing instruments and 141 preliminary breath test units (PBTs) to law enforcement agencies and trained 338 officers on breath alcohol instruments and trained 144 officers in the 24-hour SFST Training. The staff conducted calibration checks and verified proper operation on 129 simulators and replaced 7 simulators. The Safety Center staff responded to 2,655 calls regarding ignition interlock. Of this total 2,020 were concerning installs for an average of 168 install calls per month. There were 140 medical letters sent out. Twenty-three new Drug Recognition Officers (DRE) were trained, five DRE instructors, and 94 DREs were recertified during the fiscal year. The center also provided prosecution guidance and advice as requested and complied with 3 subpoenas for court appearances.

**DWI Courts - The Office of State Courts Administrator (OSCA)** - received grant funding for DWI court expansion in the State. DWI courts provide a cost-effective alternative to the traditional criminal justice system in addressing the risk to public safety caused by hardcore impaired drivers. As of September 30, 2017 there were 818 individuals participating in DWI courts in 22 stand-alone county programs and 37 adult drug court programs that accept DWI offenders. There have been 288 DWI court graduates in calendar year 2017, with a program graduation rate of 88 percent.

The Missouri Supreme Court adopted Court Operating Rule (COR) 26. This rule requires all courts that seek to establish a DWI court or docket to submit a Plan of Operation to the Drug Courts Coordinating Commission for approval before issuing a limited driving privilege (LDP). As of September 1, 2017 approved courts have granted 1,512, revoked 290 and suspended 37 LDPs.

A requirement for DWI court team training was included in the DWI Court Guidelines. After January 1, 2011, each court who has not attended DWI Court training through NCDC is required to attend a 3-day DWI Court training before their plan of operation will be approved to grant a LDP. The DWI Court training includes over 18 hours of instruction time and six additional breakout sessions for each team to work on their individual policy and procedure manual and their Plan of Operation for their DWI Court. A total of 49 teams have attended the 3-day DWI court training with 418 DWI court team members in attendance in since 2011.

**Drug Recognition Expert System** - The Missouri Department of Transportation contracted with the REJIS Commission to create an automated system to facilitate data collection, data sharing, tracking of certification, and overall administration of the Drug Recognition Expert (DRE) program. The State Coordinator works with a group of technical experts across the state to administer the DRE program. This system allows for automatic transmission of drug evaluations to the regional coordinator, state coordinator and the federal database. The system also allows for email notification of DREs, regional coordinators and the state coordinator.

The system has been up and running since March 1, 2016, and has received excellent feedback from DREs in the field. DRE Candidates are trained on the new system as part of their DRE training, conducting their field certifications using the system. Missouri has seen an increase of 121 drug evaluations conducted for enforcement efforts over 2016 numbers. The program is proving to be a great administrative tool and will add to the state's ability to track drug involvement in traffic stops.

**2017 – (Data from Missouri DRE System):**

961 Total Evaluations

285 Training Evaluations

676 Enforcement Evaluations

## Occupant Protection

### **Safety Belt**

Traffic crashes are one of the leading causes of death in the United States. It is well recognized that one of the best means of defense in a crash is to be protected by a safety belt or a child safety seat. Increasing safety belt and child safety seat use has tremendous potential for saving lives, preventing injuries, and reducing the economic costs associated with traffic crashes. Safety belt use dramatically reduces a person's chance of being killed or seriously injured in a traffic crash. Of the drivers involved in 2014-2016 crashes, 1 in 2 was injured when they failed to wear their safety belt, however, when they were wearing a safety belt, their chances of being injured in the crash were 1 in 7. When examining driver deaths, the differences are much more significant. Drivers had a 1 in 35.6 chance of being killed if they were not wearing a safety belt; but that chance dropped dramatically to only 1 in 1,308 if the driver was wearing a safety belt.

### **GOAL #4:**

To increase teen safety belt usage by 1% annually.

Result: 70% for 2016 (survey not conducted in 2017)

The OHS coordinated five quarterly mobilizations in the area of Occupant Protection during FY2017, in addition to the Click It or Ticket It Campaign and the Youth Seat Belt Campaign. The quarterly OP enforcements were conducted November 25, 2016, February 16, 2017, April 13, 2017 and the CPS focused enforcement was September 17-23, 2017.

The Click it or Ticket enforcement was conducted May 22-June 4, 2017. This campaign involved 136 law enforcement agencies with a total of 11,071 hours of work completed. This campaign also included a media campaign outlined in the Public Information & Education section. Law enforcement mobilizations also help law enforcement obtain offenders of other dangerous crimes. Some results from the 6 enforcement activities are as follows:

482 DWI Alcohol/Drug arrests

8,753 Seat Belt citations

345 Child Restraint Violations

257 Felony Arrests

611 Drug Arrests

636 Fugitive Arrests

### **GOAL #1:**

To increase statewide safety belt usage by 1% annually. Result: 84% for 2017

### **GOAL #2:**

To reduce unrestrained passenger vehicle occupant fatalities in all seating positions from the 2012 calendar base year of 394 to 324. Result: 384 for 2016 (FARS)

### **GOAL #3:**

To increase safety belt related citations and warnings made during grant funded enforcement activities and mobilizations by .25 percent annually based on a three-year rolling average of grant years 2011-2013 = 35,256 to 35,608. Result: 31,220 (26,693 citations) for FY2017

## Occupant Protection

### *Child Passenger Safety*

Attention is also given to the youngest passengers through the Child Passenger Safety Program. The FY2017 program focused on the use of booster seats until the child met the height and weight requirements required by law, even if the child is 8 years old. Ensuring a proper seat belt fit is vital to surviving a car crash with minimal injuries.

The State of Missouri has 1,018 Certified Child Passenger Safety Technicians, 35 Child Passenger Safety Instructors and 172 Inspection Stations with at least one Certified Technician. Child passenger safety seats were provided to low income

families through the inspection stations across the state. The OHS distributed 1,109 seats total, 805 convertible seats and 304 high back boosters.

The CPS enforcement campaign continued again this year with the media message focusing on booster seats. During the campaign, 88 law enforcement agencies contracted with the OHS. A total of 2,163 hours of enforcement resulted in 2,247 traffic stops, including 419 seat belt citations and 33 child restraint citations written.

2017 Missouri occupant restraint usage rates:

Statewide – 84%

CPS – 94%

Teens – 70% (2016 results, survey not conducted in 2017)

CMV - 83% (2016 results, survey not conducted in 2017)

### Distracted Drivers

Distracted driving is a voluntary diversion of the driver's attention from activities critical to safe driving. There are four types of driver distraction; visual, auditory, manual, and cognitive. There is a growing body of evidence which suggests driver distractions, both inside the vehicle and the road environment, becoming increasingly large contributors to road trauma. It is estimated that drivers engage in a secondary task between one-quarter and one-half of the time they drive.

#### **GOAL #1:**

To decrease fatalities involving distracted drivers to 70 by 2016. Result: 97 for 2016 (STARS)

#### **GOAL #2:**

To decrease serious injuries involving distracted drivers to 674. Result: 573 for 2016 (STARS)

The OHS encourages law enforcement to find innovative ways to address the distracted driving issue. Missouri currently has a no-texting law for individuals 21 years old and under, however, it is very difficult

to enforce. Statistics show us that it is not only this younger population engaging in texting while driving, it includes all age groups and to compound the issue, texting is only one of many distractions that are encountered while driving.

Presentations and educational materials continue to be implemented at schools, businesses and community organizations statewide. Public information campaigns, such as the partnership with KRCG TV on the Focus on the Road campaign in which over 4,000 Missourians pledged to stay "focused on the road", are a great way to get the message out to the public.

Legislative bills have been proposed each of the last several years to strengthen the distracted driving law, unfortunately the bills have not yet passed. Similar bills have been pre-filed for the upcoming 2018 legislative session.

## Young Drivers

Young drivers are categorized as those ages 15 through 20 years. These young drivers are substantially over-involved in Missouri traffic crashes. In 2016, 14% of all fatal crashes involved a young driver of a motor vehicle; this is particularly significant since young drivers comprised only 8% of the licensed driver population in Missouri.

The top five contributing circumstances attributable to young drivers of motor vehicles involved in 2014-2016 fatal and serious injury crashes were:

1. Driving Too Fast for Conditions
2. Failed to Yield
3. Improper Lane Usage/Change
4. Distracted / Inattentive
5. Speed Exceeded Limit

### **GOAL #1:**

To decrease drivers age 20 or younger involved in fatal crashes to 111. Result: 128 for 2016 (FARS)

### **GOAL #2:**

To decrease drivers age 20 or younger involved in serious injury crashes to 805. Result: 755 for 2016 (STARS)

Young driver programs focusing on seat belt use, underage drinking and distracted driving continue to be supported. Each of the following programs reached hundreds of teens, who in turn, spread the message to other teens.

Missouri Safe and Sober-A free and effective program that educates students and parents on the dangers of drugs and alcohol while reinforcing positive decision making and responsibility. During the fiscal year, 461 schools participated in this program and 160,000 students were reached.

ThinkFirst MO-An award-winning school assembly program for teens. High-impact injury prevention presentations are made to Missouri schools free of charge by personal testimony from people who have sustained a brain or spinal cord injury, usually due to a motor vehicle crash. A total of 14,625 Missouri students received traffic safety education from the ThinkFirst traffic safety assembly program delivered via 128 presentations at 84 schools. A total of 1,169 Missourians received traffic safety education from the ThinkFirst Corporate/Community Traffic Safety Program delivered via 28 presentations at 24 worksites/organizations. In addition ThinkFirst Missouri delivered 12 Traffic Offender Program classes reaching 184 high-risk Missouri drivers. On May 1, 2016, ThinkFirst MO launched the First Impact GDL education program for parents. A total of 1,313 parents & teens received the First Impact GDL program via 74 presentations delivered at 74 venues statewide.

A graphic for the "It Only Takes One" campaign. The background is blue. At the top, the text "IT ONLY TAKES ONE" is written in large, white, sans-serif letters. The letter "O" in "TAKES" is stylized with a yellow outline. Below this, a vertical list of risks is presented in white text: "ONE text", "ONE drink", "ONE call", "ONE reach", "ONE distraction", and "ONE fatal moment". To the right of this list is a large, stylized yellow outline of the number "1". At the bottom, the text "ONE CLICK can save your life." is written in yellow, followed by "BUCKLE UP! [seat belt icon]" and "There's only ONE YOU." Below this, the words "ARRIVE ALIVE" are in white, and the website "www.saveMOlives.com" is in blue. There is also a small graphic of a car with its headlights on.

**SMART/CHEERS** – The University of Missouri houses two programs aimed at alcohol use on college campuses. The SMART program is a web-based program that educates bar and restaurant owners on the sale of alcohol to minors and how to avoid over serving those already intoxicated. During the fiscal year there were 12,536 total users of SMART, with an average of about 1,000 new users per month. Additionally, 4 SMART live trainings were completed and approximately 100 individuals were trained. CHEERS to the Designated Driver is a program for bars and restaurants to celebrate the designated driver by serving them free non-alcoholic drinks. Currently, 226 bars and restaurants participate in the program.

**TRACTION** - Teens Taking Action to Prevent Traffic Crashes, (formerly Team Spirit) is a youth traffic safety leadership training program designed to empower youth to take an active role in promoting safe driving habits. High school students and advisors are invited to attend one training program as a school team. As a team they will not only receive educational training on highway safety topics, but will also develop individualized team action-plans to be implemented within their own schools upon their return. During the fiscal year, 36 schools were trained at TRACTION and implemented plans within their schools.

Young driver materials were assessed to determine the best and most cost-effective way to reach the largest number of parents and teens, and are distributed to the public through an online ordering system at <https://www6.modot.mo.gov/OrderSystem/pub/displayOrder.do>.

The Graduated Driver License Law information continues to be included in campaign and web materials to educate teens and adults on the importance of and purpose for the law. This information is also included in the RoadWise Guide: Parent/Teen Safe Driving Guide. Over 30,000 guides were distributed during the fiscal year to teen, parents and teachers to support new drivers.

Two law enforcement campaigns were again supported, youth seat belt and underage drinking. Participation from 126 law enforcement agencies during the youth seat belt campaign resulted in 1,240 seat belt citations issued. In addition, 171 agencies participated in the youth alcohol campaign resulting in 62 minor in possession citations, 20 Zero Tolerance citations, 4 fake ID's recovered and 274 driving while intoxicated arrests.

Both campaigns are promoted through paid, earned and social media outlets. The youth seat belt message "Buckle Up. Every Trip. Every Time." focused on how powerful teens are and how much they can make a difference by speaking up about the importance of wearing a seat belt every trip, every time. This campaign was also supported by a "Make a Difference" art contest for Missouri students and focused on the importance of wearing a seat belt.

The youth alcohol message, "be smart, be brave, be a good friend, don't let anyone drink and drive" focused on encouraging teens to speak up about impaired driving.

## It's Time... To Talk About Driving Retirement

A Missouri Guide

### Older Drivers

Our population is aging and older adult drivers are increasing their exposure (miles driven/year) on the highways. According to the U.S. Census Bureau, Missouri ranked 16th nationally in 2010 with 15% of the population age 65 or older. By the year 2030 it is estimated that over 20% of the population in Missouri will be age 65 or older. That means approximately one in five people will be 65 or older.

Being able to go where we want and when we want is important to our quality of life. Personal mobility is often inextricably linked to the ability to drive a car. However, as we age our ability to drive a motor vehicle may be compromised by changes in vision, attention, perception, memory, decision-making, reaction time and aspects of physical fitness and performance.

#### **GOAL #1:**

To decrease fatalities involving older drivers to 117.  
Result: 201 for 2016 (STARS)

#### **GOAL #2:**

To decrease serious injuries involving older drivers to 632. Result: 745 for 2016 (STARS)

The OHS continues to work with safety partners and universities to produce and implement countermeasures that reduce crashes involving older drivers. Some of these measures will enable older drivers to check their own driving abilities, assist local driver license offices in recognizing medically unfit drivers and develop a package of office-based screening tools to be used by healthcare providers. In addition, 23 presentations were offered at senior/retirement centers in the counties of Adair, Audrain, Boone, Callaway, Camden, Cole, Cooper, Crawford, Gasconade, Howard, Laclede, Macon, Maries, Miller, Moniteau, Morgan, Osage, Pettis, Phelps, and Randolph.

### Commercial Motor Vehicles

Large trucks have blind spots, identified as No Zones, around the front, back and sides of the truck. The blind spots make it difficult for the driver to see. It is critically important that other drivers stay out of the No Zone of a commercial motor vehicle (CMV). Since CMVs are large transport devices that are much heavier than passenger vehicles, they cause greater amounts of personal injury and severity to the occupants of vehicles in crashes. When analyzing the types of persons killed or injured in CMV crashes, the majority were not the occupants of the commercial motor vehicle.

The Highway Safety & Traffic Division administers the Motor Carrier Safety Assistance Program (MCSAP), which operates under a grant from the Federal Motor Carrier Safety Administration. Goals, benchmarks and strategies are outlined within the Commercial Vehicle Safety Plan. Having the MCSAP program housed in the OHS provides a unique opportunity for coordinating safety efforts between the MCSAP and NHTSA programs.

During the MCSAP fiscal year 2016, Missouri conducted a total of 94,241 roadside inspections on commercial motor vehicles. Missouri State Highway Patrol conducted four Truck Checks, utilizing 45 Troopers, working a total of 1,272 hours. The Truck Checks resulted in 1,052 inspections with a 28% out of service rate. Missouri currently has a low number of passenger carrier vehicle crashes. To ensure Missouri keeps that number low, the CMV inspectors conducted 823 passenger carrier inspections during FY16. Furthermore, MoDOT Motor Carrier Services conducted a total of 336 compliance reviews on CMV companies.

Missouri's commercial motor vehicle safety belt use rate is 82.8%. Due to this low use rate, Missouri has taken a zero tolerance approach to safety belt enforcement on CMVs. During FY16, Missouri CMV enforcement officers issued 1,051 safety belt citations and MoDOT Motor Carrier Services issued 2,256 letters to motor carriers informing them of their driver's noncompliance with the safety belt law.

Missouri's public education efforts on commercial motor vehicle safety included two media campaigns, which resulted in a total of 39,768,443 impressions. That tells us the CMV message reached an engaged audience.

## Motorcycles

A responsible motorcyclist must think about the consequences of their riding behavior in traffic and accept personal responsibility for the results of their decisions and actions, as well as develop good skills and judgment. The motorcyclist must consider their personal margin of safety or margin for error – how much extra time and space they need given their skill level.

Likewise, the general motoring public must be aware of their surroundings while driving and share the road with motorcyclists. A significant number of motorcycle crashes involve another vehicle.

### **GOAL #1:**

To decrease motorcyclist fatalities to 86.

Result: 127 for 2016 (FARS)

### **GOAL #2:**

To decrease un-helmeted or non-DOT-compliant helmeted motorcyclist fatalities to 30 (does not include fatalities where helmet use was "unknown").

Result: 40 for 2016 (STARS)

### **GOAL #3:**

To decrease fatalities involving motorcycle operators who are not licensed or improperly licensed to 40.

Result: 46 for 2016 (STARS)

The Motorcycle Safety Trust Fund is used for training motorcyclists and promotes public awareness of motorcyclists. From January 1, 2017 through November 28, 2017, the Missouri Motorcycle Safety Program (MMSP) has trained 3,673 beginning students and 554 non-beginning students. The MMSP and the

## Watch for **MOTORCYCLES**

ARRIVE ALIVE  
[saveMOLives.com](http://saveMOLives.com)

OHS's goal is to promote awareness of motorcycles on the roadways, obtaining proper licensing and instructions and promoting proper riding gear but, most of all reducing motorcycle crashes and fatalities through the aforementioned process.

The funding received for the program was used for media targeting rider safety for males ages 45-60 and motorist awareness for all drivers. The motorcycle awareness media campaign starts in late April through May to early September and includes late summer holidays and special motorcycle events throughout the riding season.

Rider awareness is a year-round process starting at the dealerships throughout Missouri with dealer placement hang tags on motorcycles and displays, along with free motorcycle training courses at participating dealerships. Motorcycle safety pamphlets are also distributed to license offices and dealerships. In 2017, the OHS distributed 4,599 Watch for Motorcycles yard signs, 3,291 Watch for Motorcycle magnets, and 6,221 Motorcycle Safety brochures.

## Crashes Involving School Buses

Although school buses provide one of the safest modes of transportation, there are still school bus related injuries and, unfortunately, some fatalities every year. Some of these are due to crashes with other vehicles while others are due to the school bus striking a pedestrian or bicyclist.

### **GOAL #1:**

To decrease or maintain fatalities involving school buses or school bus signals to 2. Result: 1 for 2016 (STARS)

### **GOAL #2:**

To decrease serious injuries involving school buses or school bus signals to 12. Result: 21 for 2016 (STARS)

OHS staff continues to serve on the state school bus safety committee and distributes materials to address safety in and around school busses and sharing the road with school busses.

## Vulnerable Roadway Users

Many Missourians rely on non-motorized means of transportation such as walking and bicycling. Both of these modes have the ability to provide physical and health benefits, but they also have the potential for serious or fatal injuries in the event of a crash. Crashes involving pedestrians and bicyclists do not occur in extremely large numbers (1.0% and .33% of all crashes, respectively) but when a pedestrian or bicyclist is involved in a traffic crash, the potential for harm is much greater.

### **GOAL #1:**

To decrease pedestrian fatalities to 71.

Result: 96 for 2016 (FARS)

### **GOAL #2:**

To decrease or maintain bicyclist fatalities to 4.

Result: 8 for 2016 (FARS)

The OHS continues to partner with agencies such as TrailNet and PedNet to educate the public on safely interacting with motor vehicles. Education is also geared to the motoring public on sharing the road safely with pedestrians and bicyclists. Bicycle helmets are distributed during safety events to raise awareness at the local level utilizing the Safe Communities programs and the Missouri Coalition for Roadway Safety.

I brake  
for people.

## Traffic Engineering

Traffic engineering is a vital component of the traffic safety counter-measure picture. The techniques engineers use to design roads certainly affect the safety of motorists. Engineering approaches offer two basic types of countermeasures against drivers committing hazardous moving violations: highway design and traffic engineering. With highway design, the roads can be redesigned to add capacity or accommodate increased traffic. Highway design can also mitigate the injury consequences for motorists who come into contact with aggressive, impaired, or distracted drivers. Effective traffic engineering offers a way to accommodate increased traffic flow, or at least get it under control, without building new roads.

Consulting services were provided for Traffic engineering projects around the state. Funding was focused on correcting operational problems on city and county streets, and highways.

A total of seven consultant projects were funded through the grant this fiscal year. Those consultant services were provided on projects located in the City of St. Robert, City of Republic, City of University City, City of Moberly, City of Louisiana, City of Warsaw, and the City of Jackson.

The 2017 Traffic Engineering Assistance Program (TEAP) projects, which utilized Highway Safety Funds, included corridor studies, intersection improvements, operational analysis, sign inventories, pedestrian/bike route analysis and parking studies.

The engineering safety projects MoDOT continues to implement relate to roadway departure and intersections. These improvements include installation of several hundred miles of rumble strips on improved shoulders, several thousand curve related signs (chevrons) and more intersection improvement projects like j-turns.

Another initiative MoDOT continued to implement this year across the state is high friction surface treatment (HFST) on problematic curves. This higher friction aggregate is very successful in minimizing crashes on roadway curves, especially in wet weather.

## A FEW IMPORTANT POINTS

## Program Area Highlights

### PUBLIC INFORMATION & EDUCATION

The hOUR Project, developed by the OHS in 2016, is a traffic safety presentation that takes approximately one hour of your time to talk about something that is OUR problem – serious injury crashes and fatalities. Geared toward businesses and organizations statewide, this presentation stresses the importance of keeping employees safe while working in company vehicles, and when they're driving to and from work. Topics of discussion include safety belt and cell phone usage and policies, impaired, aggressive and drowsy driving.

This presentation has been given many times to representatives of hundreds of businesses across the state. A stand-alone presentation has been developed to be presented as a safety presentation by businesses to their employees and further reach our target audience. This project continues to gain momentum and has become very successful statewide.

Liam's Story was first revealed in advertising during the Super Bowl. Liam was a 15 month old baby who was killed by a drunk driver. Through his father's raw, real plea on social media, millions of people received this heart-breaking message and were urged to, "Don't drink and drive", by Liam's father, Marcus. This story was shared throughout the year and again showcased for Drive Sober or Get Pulled Over, again, gaining millions of impressions through paid and earned media. This promotion earned the attention of Google, and through cooperation with our contracted state media buyer, Bucket Media, the OHS collaborated to provide Google with information to publish a case study on this campaign.

Teen Driving Education – The St. Joseph Police Department acquired a Full Cab Driving Simulator during the latter part of FY2016. The simulator consists of a distracted driving program, and an impaired driving program simulation. The simulator was used at 19 high schools and teen events throughout FY2017 in the northwest Missouri district. These events are often held in conjunction with the vehicle rollover simulator provided by the Missouri State Highway Patrol, and adult trikes that are used with fatal vision goggles throughout an obstacle course. This has been a great program that helps our local law enforcement interact with the youth in our community and provides the opportunity to speak with teen drivers about the dangers of distracted and impaired driving.

## OCCUPANT PROTECTION

During the latter part of FY16, students of Four Rivers Career Center in Washington Missouri built the rollover simulator pictured to the right. The project, in conjunction with the Franklin County Sheriff's Office, gave the students the opportunity to have firsthand knowledge of how the simulator worked and to spread the message of the importance of wearing a seatbelt. To work the simulator, a dummy is placed on the vehicle seat unbelted. The simulator then rolls 360 degrees, ejecting or partially ejecting the dummy. The simulator is then run again with the dummy belted into the vehicle, giving viewers the difference between a crash with and without a safety belt used.

During FY17, the Franklin County Sheriff's Office used the rollover simulator at 20 public relations events, reaching over 12,000 people. In addition, videos featured online, including the Department's Facebook page, have reached over 25,000 people.

## YOUNG DRIVERS

First Impact is an evidence-based, traffic safety parent program targeted to parents and/or guardians of teen drivers in the pre-permit, permit or intermediate stage of licensure. The goal of First Impact is to reduce the number of motor vehicle fatalities, injuries and crashes among teen drivers by increasing parental awareness and enforcement of Missouri's graduated driver license law.

First Impact will provide the tools parents need to be involved in monitoring, coaching and supporting their new teen driver. Ensuring that parents understand the risks and responsibilities associated with driving is essential in preventing teen driving tragedies. First Impact has trained facilitators statewide and is provided free of charge. Also provided is a parent/teen driving agreement which outlines specific rules that parents and teens agree to follow during the different stages of licensure of the teen.

During FY17 81 people were trained at 16 First Impact Facilitator Trainings and 74 First Impact parent programs were delivered statewide reaching over 1000 parents.

## AGGRESSIVE DRIVERS

The OHS, in conjunction with the Missouri State Highway Patrol, teamed up with neighboring states for a special Speed Enforcement Campaign July 21st through 23rd, 2017. The campaign included the states of Nebraska, Kansas, Oklahoma, Iowa, Missouri and Arkansas to impact the ever-present problem of speeding on major routes that connect these states. Targeted roadways for this campaign included Interstate 44, I-70, I-35, I-55, and I-270. In Missouri a total of 66 departments participated in the campaign; final numbers for the campaign were as follows:

- 218 Crashes
- 2 Fatalities
- 4,098 Traffic Citations
- 322 Seat Belt Citations
- 2,089 Speed Citations
- 2,324 Traffic Warnings
- 61 DWI Arrests
- 107 Commercial Vehicle Citations
- 67 Commercial Vehicle Warnings
- 98 Drug Arrests
- 254 Felony Arrests

## BUCKLE UP PHONE DOWN

A new initiative was launched in FFY 2017 titled Buckle Up Phone Down. The intent of this campaign is to encourage businesses and individuals to "Join the Movement" and commit to wearing their safety belt every trip, every time, and to put their cell phone down when driving. This effort has been gaining positive momentum with 290 businesses and 1,810 individuals that have taken the challenge to always wear their safety belt and not use their cell phone while driving. Public service announcements and social media advertising have been used to encourage more individuals to accept the Buckle Up Phone Down challenge.

**FY17 Projects Not Implemented**

<b>Program</b>	<b>Project</b>	<b>Description</b>	<b>Obligated Funds</b>	<b>Expended Funds</b>	<b>Reason for Unexpended Funds</b>
154	154AL-2017-AL-13-00	Carthage Police-DWI Sobriety Checkpoint	\$3,125.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started
154	154AL-2017-AL-55-00	Eureka Police-Sobriety Checkpoint	\$7,500.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started
154	154AL-2017-AL-83-00	Overland Police-Youth Alcohol	\$1,680.00	\$0.00	The agency was short handed throughout the grant cycle and was unable to complete this contract.
154	154AL-2017-AL-88-00	St Ann Police-Sobriety Checkpoint	\$14,000.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started: They also tried to make a change in the project director which did not work out too well.
154	154AL-2017-AL-95-00	St Charles Co Police-Youth Alcohol	\$10,000.00	\$0.00	This project is handled by the detective division instead of traffic. Apparently due to manpower problems and number of cases, this project did not get completed.
154	154AL-2017-AL-A1-00	Seneca Police-Zero Tolerance	\$1,500.00	\$0.00	Per officer Pugh, funds were not used due to him having cancer, and two officers quitting. Also had major fludding that used up resources.
154	154AL-2017-AL-A9-00	St Louis Metro Police-Sobriety Ckpoint	\$20,000.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started
154	154AL-2017-AL-B2-00	Sullivan Police-Franklin Co DWI Task For	\$3,000.00	\$0.00	The agency was not able to reconcile a possible problem with Workers Compensation insurance
154	154AL-2017-AL-B5-00	Union Police-Franklin Co Impaired Drivin	\$3,000.00	\$0.00	The agency was not able to reconcile a possible problem with Workers Compensation insurance
154	154AL-2017-AL-B6-00	Velda City Police-Safer Roads	\$3,000.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started
154	154AL-2017-AL-C1-00	Woodson Terrace Police-DWI Wolfpack Enf	\$2,500.00	\$0.00	The project director left the department which resulted in no follow up by the agency to complete the project.
154	154AL-2017-AL-D1-00	Clay Co Sheriff-Sobriety Ckpt / Task For	\$4,000.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started, agency also had a saturation contract
154	154AL-2017-AL-E8-00	Marshall Police-Sobriety Checkpoint	\$0.00	\$0.00	Agency requested void contract on 7/10/17 due to lack of staffing for saturation patrol
154	154AL-2017-AL-G4-00	Christian Co Sheriff-Sobriety Checkpoint	\$6,500.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started: New project director had a tough time learning and understanding the importance of voucherizing.
405b Low	M2HVE-2017-05-04-00	Brentwood Police-Max Prim Seat Belt Ordi	\$2,500.00	\$0.00	The agency was not able to get officers to work the overtime for the project and did not apply again this cycle
405b Low	M2CSS-2017-05-01-00	THSD-MAP 21 Child Safety Seat Distributi	\$42,700.00	\$0.00	CPS Coordinator position was vacant last two months of grant year,
405c	M3DA-2017-04-17-00	MO DHSS-EMS NEMESIS 3 Transition	\$32,565.00	\$0.00	Contract not approved by subrecipient
405d Mid	M5HVE-2017-03-26-00	Scott City Police-SEMO DWI Task Force	\$4,000.00	\$0.00	HB4 removed HS ability to fund checkpoints before subrecipient started. They also lost their project director to another department resulting in a long delay in getting someone back in charge.
405d Mid	M5HVE-2017-03-32-00	Willow Springs Police-Sobriety Checkpoin	\$2,500.00	\$0.00	The police chief who was in charge of the project was removed from office and the new replacement struggled in trying to find time to look at the project.
405d Mid	M5HVE-2017-03-43-00	Doniphan Police-In Car & Officer Worn Ca	\$2,500.00	\$0.00	The agency experienced a major flood resulting in a loss of all paperwork. They were unable to recover any of the overtime records to be able to submi the information.
405d Mid	M5TR-2017-03-01-00	MO Police Chiefs Assoc-DITEP 2017	\$44,580.50	\$0.00	Staffing issues and waiting on curriculum update from NHTSA/IACP

"FAST Act 402" Projects listed below -402 projects were created and funded as MAP 21 402 projects until all authroized MAP 21 402 Program funds were reimbursed. The same projects were then created for FAST Act Program 402 reimbursements. Projects with a \* were implemented and had expenditures out of MAP-21; only the amount that was migrated to FAST Act funds was unexpended.

FAST Act 402	OP-2017-05-05-00	Lake St Louis Police-Occupant Protection	\$55.17	\$0.00	*
